SATURDAY JANUARY 26TH 2008

Topics

Working at Microsoft by Stafford Mays

Microsoft: why is it one of the best companies to work for

Surface Computing by Jeff Westerinen

Microsoft Surface represents a fundamental change in the way we interact with digital content. With Surface we can actually grab data with our hands and move information between objects with natural gestures and touch.

787 Dreamliner & Boeing Morocco relations by Skip Thompson

The presentation will provide an overview of the Dreamliner advanced technologies and performance. Attendees will learn about Boeing and Morocco historical relations in the backdrop of Royal Air Maroc early commitment to the 787 and upcoming 737 deliveries.

Boeing Everett Plant Tour

The Future of Flight Aviation Center & Boeing Tour showcase The Boeing Company and the Everett product line, the 747, 767, 777 and 787 Dreamliner. As part of the tour, attendees will tour the largest building in the world by volume. On the Boeing flight line, visitors will see airplanes in various stages of flight test and manufacture for airline customers around the world.
